

## Customer Preparations for Roach Treatment

*PLEASE DO NOT TREAT YOUR OWN APARTMENT – DO NOT SPRAY!*

Cleanliness is imperative concerning cockroach control. Unclean living conditions from housekeeping neglect are the major contributing factor of cockroach outbreaks.

- Thoroughly clean areas beneath cabinets, sinks, stoves, refrigerators, etc.
- Clean cupboards, pantry shelves and food storage bins
- Clean up all spills pertaining to food and liquids from walls and floors
- Avoid leaving scraps of food on unwashed dishes and counter tops overnight
- Keep food in air tight containers, wash out all cans prior to depositing in trash
- Move garbage outdoors into the dumpster away from the apartment complex
- Clean areas where roaches live in door frames and cabinet doors
- Clean up dead insects and dispose in outside dumpsters
